RECOMMENDED STUDY PLAN

This plan provides suggestions on how to sequence the courses you may wish to select as you plan your program of study. Most importantly, we **strongly recommend** that you take all your required Part D courses (POLS 7000, POLS7551, POLS7013) in your **first semester** of studies. These foundation courses will provide important knowledge and skills that will equip you for the more advanced Part A, Part B and Part C courses.

Beyond this, you may choose to vary from the plan we are suggesting for you below, but we recommend you give careful consideration to sequencing your studies appropriately, paying particular attention to a) required courses; and b) when the courses you are looking to take will be available (Semester 1, or 2, [for instance](#)). Please feel free to consult your Program Director if you have further questions about the plan, or about making changes.

Our programs are designed to also facilitate study abroad for a semester, should you wish to do so. If you are interested in Study Abroad during the course of your program, please consult [UQ Study Abroad](#) and your Program Director.
